The biggest display of NeXtime clocks in the world!

Tuesday, 27 April 2010 10:26

Furniture store Ostermann in Bottrop shows more than 100 NeXtime clocks

The family-run OSTERMANN is one of the oldest (est. 1949) and leading furniture stores (8 large stores) in the west of Germany. The OSTERMANN store offer spans a wide selection of furniture and home accessories. NeXtime's design-led clocks are one of the most successful products sold at Ostermann; now showing more than 100 NeXtime clocks in their store in Bottrop; probably the biggest display of NeXtime clocks in the world!

"I am very proud of our display at Osterman", Dennis Winkes, Country Sales Manager of NeXtime Germany said. "The display is up to 6 meter (!) high and a total of approx. 54m2 of NeXtime clocks including store inventory and only using limited floor space at the same." Marcus Klein, the sales representative of Ostermann tells how this store is one of best selling stores in Germany of NeXtime clocks. "And has been for years", he added. "But Ostermann felt that they could do even better by extending our range. Together we agreed a new collection and a way how to display this collection. The striking result exceeds both my and Ostermann's expectation!" Marcus does not rule out that more Ostermann stores will follow with a similar big and striking display.
