

NeXtime unveils 'cleaner and crisper' corporate website

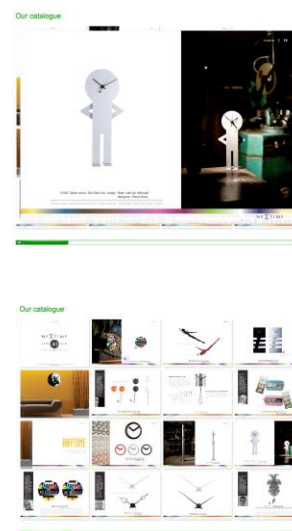

This new corporate website perfectly showcases the design clocks of NeXtime around the clock

NeXtime announced today the launch of its new website; www.nextime.eu. The website has been redesigned with a fresh new look and has been updated with the latest information including an online catalogue with the new 2010 collection of clocks. The new design of the NeXtime corporate website makes it easier to read and find information about the company and the many design clocks of NeXtime.

"We are very proud of the new website," said Marije Guillaumond, marketing manager of NeXtime. "But our work is not done. We approached this redesign as the first step in the evolution of NeXtime's online presence and activities; as a building block for more things to come. We expect to add more functionality to our website for our customers, the press and other visitors to our website later this year. Also NeXtime will enter other exciting and new opportunities that the internet has to offer."

Founded in 1970, NeXtime is the worldwide leader in clocks. The company offers a wide range of wall clocks, table clocks and alarm clocks designed for people to enjoy and looking how time passes by more fun.
